SIRC SEWP VI CONTRACT INFORMATION

Contract Vehicle	NASA SEWP VI	**Contract Category**	Category A — ITC/AV Solutions
Contract Number	80TECH26D2084	**Ordering Period**	11/01/2026 – 10/31/2036
Business Status	SBA Certified WOSB	**UEI**	EJJMMJHYDFH6
CAGE	1PQ53	**Primary NAICS**	541519

WHAT SIRC PROVIDES

- Software & Subscription Licensing
- Servers, Desktops, Notebooks & Thin Clients
- Storage Systems & Data Platforms
- Networking & Wireless Equipment
- Audio-Visual & Video Conferencing Systems
- Imaging Products & Scanners
- Radios & Communication Devices
- Displays, Peripherals, Racks, Power & Cabling
- Enterprise IT hardware and software resale
- Software asset & lifecycle management

WHY SIRC

Government Procurement Experience
Technology procurement through established government contract vehicles.

Value-Added Reseller
Authorized resale of enterprise IT hardware and software.

Secure Supply Chain
ISO 20243-certified procurement processes.

NASA'S GOVERNMENT-WIDE TECHNOLOGY VEHICLE

About NASA SEWP VI

Solutions for Enterprise-Wide Procurement VI | A streamlined path to federal ITC/AV solutions

WHAT IS SEWP VI?	WHY IT MATTERS TO FEDERAL BUYERS
NASA SEWP VI is a multiple-award Government-Wide Acquisition Contract (GWAC) that gives eligible Federal agencies access to a broad range of information technology, communications and audio-visual products, solutions and eligible services.	SEWP VI provides an established contract vehicle for agencies to obtain commercial technology through task and delivery orders. Orders are placed by authorized agency contracting officials under applicable FAR requirements, agency procedures and current NASA SEWP guidance.

SIRC IS A NASA SEWP VI CATEGORY A PRIME CONTRACT HOLDER

A

CATEGORY A | ITC/AV SOLUTIONS

Software Information Resource Corporation (SIRC) holds a NASA SEWP VI Prime Contract in Category A. This award supports the acquisition of in-scope information technology, communications and audio-visual products and eligible product-based services.

CATEGORY A — TECHNICAL AREAS

SIRC's Category A award covers the following SEWP VI technical areas. Confirm the specific item or service is within the executed contract scope before ordering.

1a IT Computer Systems / Computer Facilities	**2a** IT Storage Systems	**3a** Networking & Communications Equipment
4a Imaging Equipment & Supporting Technology	**5a** IT Power & Cabling Equipment	**6a** Audio / Video Equipment
7a Security & Sensor Equipment	**8a** Software & Cloud Technology	**9a** Product-Based Services

SIRC contract reference: 80TECH26D2084 • Ordering period: November 1, 2026 – October 31, 2036 • UEI: EJJMMJHYDFH6 • CAGE: 1PQ53

FROM MISSION NEED TO DELIVERY

How to Order Through SIRC

A clear six-step workflow for authorized Federal customers using NASA SEWP VI

THE ORDERING JOURNEY

01–03 | PLAN & COMPETE | **04–06 | ORDER & DELIVER**

01
DEFINE THE REQUIREMENT

Identify the need, technical specifications, quantities, funding, delivery location and schedule.

CUSTOMER

02
REQUEST A QUOTE

Submit a request through the NASA SEWP Quote Request Tool (QRT), or contact SIRC to coordinate a quotation.

CUSTOMER

03
REVIEW & SELECT

The Government evaluates technical acceptability, price, delivery and best-value factors under its acquisition procedures.

GOVERNMENT / CO

04
ISSUE THE DELIVERY ORDER

The authorized Contracting Officer issues the Delivery Order with the SEWP VI contract number and required line-item details.

CONTRACTING OFFICER

05
SUBMIT TO NASA SEWP PMO

Route the Delivery Order to the NASA SEWP Program Management Office using current submission procedures for validation and processing.

NASA SEWP PMO

06
FULFILL & SUPPORT

SIRC acknowledges the order and coordinates sourcing, delivery, order updates and applicable post-delivery support.

SIRC

WHO OWNS EACH PART?

CUSTOMER / CONTRACTING OFFICER	NASA SEWP PMO	SIRC
Defines, funds, competes, evaluates and awards the requirement.	Receives and processes the Delivery Order under current SEWP procedures.	Acknowledges the order and coordinates fulfillment and customer support.

Before fulfillment, the agency should follow current NASA SEWP PMO order-submission and validation requirements. The Contracting Officer remains responsible for the agency's acquisition decisions and award documentation.

FEDERAL ORDERING REQUIREMENTS

Fair Opportunity & FAR 16.505(b)

The ordering agency controls the acquisition process; SIRC supports the quote and order workflow

FAR 16.505(b)	**Fair opportunity to be considered** For orders above the applicable micro-purchase threshold under a multiple-award contract, the Contracting Officer must provide each awardee a fair opportunity to be considered, unless an exception in FAR 16.505(b)(2) applies.

WHAT THE CONTRACTING OFFICER MUST DO

1	**Determine the ordering approach** Select an appropriate fair-opportunity procedure consistent with FAR 16.505 and agency policy.
2	**Consider eligible contract holders** Provide fair opportunity to SEWP VI awardees unless a documented exception applies.
3	**Evaluate and make the award decision** Assess responses using the stated requirements and evaluation approach; determine the best-value outcome.
4	**Document the decision** Document the rationale for the placement and price of the order, and retain the required acquisition records.

WHEN CAN FAIR OPPORTUNITY BE EXCEPTED?

FAR 16.505(b)(2) identifies limited exceptions, including urgent requirements, only one awardee capable of meeting the requirement, logical follow-on orders, minimum guarantee situations, and certain statutory or set-aside circumstances. The Contracting Officer must document the applicable basis and complete any required justification, approval and notice.

GENERAL FEDERAL MPT	NASA SEWP QRT	SEWP CONTROL NUMBER
$15,000 Effective October 1, 2025; verify current and agency-specific thresholds.	Can help identify contract holders and support the fair-opportunity process; it does not replace CO responsibilities.	Orders above the micro-purchase threshold must obtain the applicable SEWP Control Number before fulfillment, following current PMO procedures.

Thresholds and procedures may change and may be affected by agency-specific rules, statutory requirements or acquisition circumstances. Contracting Officers should consult the current FAR, agency supplements and NASA SEWP guidance for each order.

SUPPORT THROUGHOUT YOUR ORDER

SEWP Fee, Warranty & Program Support

SIRC's program team is available to coordinate quotes, order fulfillment and post-delivery assistance

0.34%

NASA SEWP CONTRACT FEE

NASA SEWP's 0.34% surcharge is included in the price of solutions and services. It is not separately listed as a line item on the quote. The Contract Holder pays the fee from its quoted prices.

WARRANTY & TECHNICAL SUPPORT

Warranty coverage is provided under the applicable manufacturer, publisher or service-provider terms identified in the quote and order documentation. Extended warranty, maintenance and support options may be available when offered and included in the order.

For damaged or incorrect items, delivery delays, warranty claims, technical questions or service concerns, contact SIRC with the agency name, SEWP VI contract number, Delivery Order number, affected item and a brief issue description. SIRC will coordinate with the relevant manufacturer, publisher or service provider, as applicable.
